

12 March 2020

LATEST UPDATE (6.00 p.m.)

Dear partners,

In light of recent developments regarding the Novel Coronavirus (COVID-19), the Cyprus Government, focusing on the health and safety of all guests to the island, has enhanced coordination mechanisms, as follows:

1. Guests arriving at Cyprus Airports are asked to inform the Health Authorities, if they have been to high-risk countries in the last 14 days. The list of countries is being updated constantly and currently includes:
 - Category 1: District of Hubei–China, Italy, Iran, Republic of Korea.

All guests that have stayed or travelled to the above countries/districts must enter isolation, under medical care/monitoring. For this purpose, the Cyprus Government provides dedicated accommodation facilities, in the mountains.

- Category 2: Rest of China Districts, Japan, Hong Kong, Germany, France, Spain, United Kingdom, Switzerland, Greece (only regions of Achaia and Illeia Prefectures, Zakyntos).

All guests that have stayed or travelled to/from the above countries/districts, should self-isolate for 14 days (this also includes maintaining social distancing, following good hygiene practice, seeking promptly medical care in case any symptoms occur at tel. no. 1420).

2. All the above is valid for guests visiting Cyprus from 11/3/2020 onwards. For the United Kingdom and Switzerland it is valid from 14/3/2020. Guests already on the island, will not be affected by the above measures.

The above is in effect until further notice, and you will be kept up to date with developments.

Kind Regards

Savvas Perdios
Deputy Minister of Tourism
